

Standard Specification:

Architectural foam trim and detail to be supplied by Elegant Foam of Sanford, Florida (TEL: 407-324-9312) (FAX: 407-324-0314).

Foam shapes to be manufactured with a standard 1 lb. density expanded polystyrene (EPS) foam. Foam is to be hard-coated with approximately 40 mills of polyurethane and then sprayed with a prime coat.

EPS density may be upgraded to either 1.5 lb. or 2 lb. depending on the intended application; such as high-traffic areas.
